

# HOME & GARDEN SHOW

## DEMONSTRATION DAY

*Saturday, February 22<sup>nd</sup>*

*Join us for one of these sessions in the Trend Stone Surfaces Activity Zone to see how to care for and update your home!*

### 9:30 - 10:30 a.m. - *Spring & Fall Yard Maintenance*

**Presented by: Green Oasis**

When is the best time to prune a tree? When should I fertilize my yard or plants or shrubs? What type of pest control do I need? If these are some of your questions, then you'll want to attend this workshop to learn tips and tricks for all of your spring and fall yard maintenance.

### 11:00 a.m. - 12:00 p.m. - *Luxury Vinyl Flooring & Ceramic Tile Installation*

**Presented by: Brooks Home Renovations LLC**

Do you like taking on small house projects yourself? Do you or your spouse think you can install vinyl or ceramic tile flooring? It's not that hard, right? In this workshop you will get a hands on demonstration on how to install luxury vinyl flooring and ceramic tile flooring in your home. Learn from the pros and make sure you're ready to do it the right way!

### 12:30 - 1:30 p.m. - *Spring & Fall Home Maintenance*

**Presented by: Edina Realty & Focus on Energy**

Are you maintaining your home like you should? Are you spending too much on heating and cooling? In this workshop you will learn how to get an analysis of your home and how to best conserve energy. Plus you'll learn how to earn incentives for improving your home's efficiencies. You will also learn what maintenance items should be completed every spring or fall, such as: changing air filters, replacing batteries, storing water hoses, and much more!

### 2:00 p.m. - 3:00 p.m. - *Cleaning with Essential Oils*

**Presented by: Bartow Builders of Eau Claire**

Are you still using bleach as your go-to cleaning product? Many people don't think about the impact of harsh chemicals and the benefits of using essential oils to clean their homes. This workshop will demonstrate how to clean your house without the harsh chemicals that lead to harmful effects on our bodies. You will learn how to make your home smell great, how to make pesticides out of essential oils, and how to make an insect repellent that is mild enough you can use it on your baby.
